

Ameri★Steel®

AN ENVIRONMENTALLY FRIENDLY SOLUTION FOR YOUR SOLID TIRE NEEDS

Ameri★Steel® solid tires provide the reliability of a new forklift tire with the cost savings of a green product. Recycled base bands are combined with new rubber to create a full-sized industrial solid tire for both your economic and environmental needs.

Ameri★Steel®

- Solid industrial tire made from recycled base and band
- Standard (black) compound with a smooth tread design
- A full sized tire for the North American market
- Available in 11 core sizes
- Excellent stability and high load capacity
- Environmentally friendly tire solution
