CUSHOTHANE®

The General Usage Specialist

Excels in all general usage conditions - from our high performance proprietary compound

Produced under the highest quality standards - in a production facility certified to ISO 9001:20008

Greater reliability - that offers lower maintenance costs and minimal downtime

Available in 2 different compounds - for Press-On tires and Load Wheels

Cushothane® Load Wheels -

- 95A Durometer
- Harder Compound
- Higher Load Capacity
- Designed for Higher RPMs

Cushothane® Press-On Tires

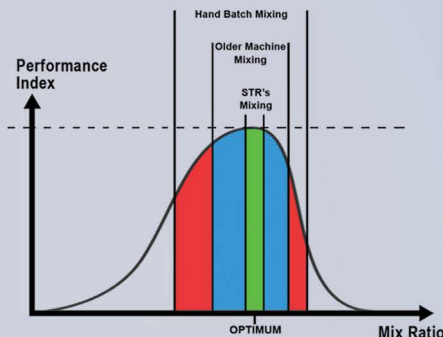

- 91A Durometer
- Higher Traction Compound
- Shorter Braking Distance
- Softer Ride

Wear Resistance Index

In a side by side comparison, Cushothane® wore 30%+ slower than the other US competitors

Greater Reliability & More Consistent Performance from advanced polyurethane production
