# CUSHOTHANE® EZ™

## The Finest Cold Storage/Freezer Solution

**Smoothest ride and quickest run-out of any flat spot** - for less vibration and reduced noise, minimizing machine and operator fatigue and increasing productivity

**Superior traction in all conditions** - unmatched performance in wet and cold conditions

**Excellent energy savings** - very low rolling resistance minimizes battery drainage in cold storage applications and provides longest operating time possible

**Highest chunk resistance** - especially at low temperature from a specialized polyurethane compound

## CUSHOTHANE® XL™ Express Wheels<sup>SM</sup>

(Ships Same or Next Business Day†)

| Load Wheels   | Press-On Tires         |
|---------------|------------------------|
| 3.25 x 4.5    | 9 x 5 x 5 (SC, TSW)    |
| 3.25 x 5.9375 | 10 x 5 x 6.5 (SC, TSW) |
| 3.25 x 6      | 12 x 5 x 9 (TSW)       |
| 3.25 x 6.375  | 13 x 5.5 x 8 (TSW)     |
| 3.25 x 6.5    | 13 x 5.5 x 9.5 (TSW)   |
| 4 x 2.5       | 13.5 x 5.5 x 8 (TSW)   |
| 5 x 2.875     |                        |
| 5 x 3.625     |                        |
| 8.5 x 2.6875  |                        |

### Extensive & Complete list of available sizes

- Press-on Tires: 4" to 36" O.D.
- Load Wheels: 2" to 11" O.D.
- Mold On Tires also available

## Available in SuperSiped™

- Small micro cuts in tire surface
- Providing edge effect to cut through water film
- Generates higher traction in wet or icy conditions
- Improves truck performance and reliability

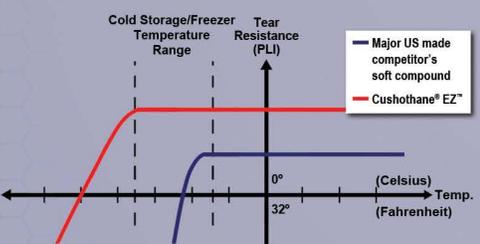

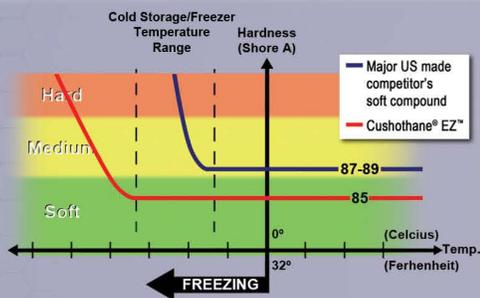

## Available Tread Styles

### Drive Tires

|                          |  |
|--------------------------|--|
| <b>Straight Sidewall</b> | <b>SSW</b> - Heavy load design         |
| <b>Smooth Flat</b>       | <b>SF</b> - General Usage applications |
| <b>Tapered Sidewall</b>  | <b>TSW</b> - Heavy load design         |

### Steer Tires

|                         |   |
|-------------------------|---|
| <b>Tapered Sidewall</b> | <b>TSW</b> - Heavy load capacity, and high stability          |
| <b>Smooth Crown</b>     | <b>SC</b> - Higher maneuverability and reduced turning torque |

## Customer Reviews

"When an end-user has an application where they want a soft ride, need traction, and have had problems with tires chunking off, I always endorse Superior Tire & Rubber Corp's Cushothane® EZ™ compound as the best tool for the job. I've even promoted it's ability to other dealers."

-Richard Ceccacci, VP - Ceccacci Lift Truck Service

"Recently, a competitor's tire was flat spotting for us and offered very short and unsatisfactory work life. Superior Tire & Rubber Corp's Cushothane® EZ™ Smooth Crown tire, siped for traction, eliminated the flat-spotting, giving us truly the longest ride and greatest value."

-Bob Bartolomeo, Maintenance Supervisor - SYSCO Foods Services
